

## **Brilliant-Metallic**

2492

## Solvent-based metal effect paint for painting furniture for industrial and professional use

	PRODUCT DESCRIPTION	
General	Solvent-based 2-pack metal effect paint for achieving creative, brilliant metallic surfaces with genuine metal properties in the furniture and interior finishing sector.	
Application area	For furniture, interior fixtures, wall paneling and wood ceilings.	
	Application in combination with a suitable topcoat system.	
	The area of application depends on the processing of the product and the topcoat system selected.	
	PROCESSING	
Processing instructions	<ul> <li>Brilliant-Metallic (2492) must not be stirred too vigorously. It is only processed by stirring with a spatula.</li> </ul>	
	<ul> <li>The temperature of the product and object, and the room temperature must be at least +10 C.</li> </ul>	
	<ul> <li>The coat Brilliant-Metallic is applied relatively "dry" – with not too much paint applied in several thin films.</li> </ul>	
	<ul> <li>To achieve a uniform appearance, we recommend manufacturing the front surfaces of one commission in the same operation.</li> </ul>	
	<ul> <li>Any change in the processing sequence, environmental conditions, non- observance of instructions or the use of products not listed may have an unfavourable effect on the result.</li> </ul>	
	• Please follow our <b>ARL 131 - Working guidelines for PUR furniture paints.</b>	
Blending ratio	10 part(s) by weight or by volume Brilliant-Metallic (2492) 1 part(s) by weight or by volume PUR-Hardener 8419 (8419000210)	
	Brilliant-Metallic (2492) can only be used with a hardener and in the mixing ratio specified. Deviations lead to film and adhesion problems.	
Pot life	8 hour(s)	
Image: State Sta	Mixed material can be used one more working day, but must be mixed 1:1 with freshly hardened material. A further extension of the pot life is not possible.	
	Increased temperatures reduce the pot life.

Our instructions are based on the current state of knowledge and are intended to advise the buyer/user to the best of our knowledge, but must be individually adapted to the areas of application and processing conditions. The buyer/user is responsible for deciding on the suitability and use of the supplied product, which is why we recommend that a sample be produced to check the suitability of the product. In all other respects, our General Terms and Conditions of Sale apply. All previous data sheets lose their validity with this edition. We reserve the right to make changes to container sizes, color shades and available gloss levels.

Application technique		Cup gun	
15-30% 8519	Spraying nozzle Ø (mm)	1,5	
	Spraying pressure (bar)	2,0 - 3,0	
	Diluent	DD-Verdünner (8519)	
	Diluent amount added (%)	15 - 30	
	Viscosity 4-mm-cup (s)	16 - 18	
	Applied quantity per application (g/r	m²) 70	
	The shape and surface condition of the workpiece as well as the type o application influence the actual consumption. Accurate values fo consumption must be obtained by applying trial coats in advance.		
Drying times	Recoatable after	approx. 3 - 16 hour(s)	
(at 23 °C and 50 % rel. humidity)			
Cleaning the working equipment	With DD-Verdünner 8519 (8519) or Waschverdünner (8501) immediately afte use.

Intermediate sanding	Grit size 320	
	Remove sanding dust.	
	Intermediate sanding must be carried out immediately before the subsequent coating is applied in order to ensure good intermediate adhesion!	
Intermediate coat	Pigmopur G50 (2406) in matching color shade	
	Pigmopur G50 Silber (2406053429) Pigmopur G50 Gold (2406053430) Pigmopur G50 Titan (2406053431) Pigmopur G50 Bronze (2406053432) Pigmopur G50 Kupfer (2406053433)	
	Intermediate drying time: min. 3 hour(s) to max. 8 hour(s).	
Product application	Brilliant-Metallic (2492) in the desired colour	
	Depending on the application area or desired effect, apply Brilliant-Metallio (2492) in several thin films.	
	Intermediate drying time: min. 3 hour(s) to max. 16 hour(s).	
Topcoat	1 – 2 x Pigmotop (2514) in the desired gloss level or	
	1 – 2 x Aduro High-Gloss (2634)	
	Topcoat application within one working day!	
	CLEANING AND MAINTENANCE	
Cleaning and Maintenance	Cleaning with Clean-Möbelreiniger (7202).	
	ORDERING INFORMATION	
Size of trading unit	0.9 kg, 10 kg	
Colour shades / Glosslevels	<b>Standard colour(s):</b> Silber (2492053429) Gold (2492053430) Titan (2492053431) Bronze (2492053432) Kupfer (2492053433)	
Supplementary products	Aduro Ecofill Smart (2317) Aduro High-Gloss (2634) Aduro Legnopur (2513) Clean-Möbelreiniger (7202) DD-Isoliergrund (25103) DD-Verdünner 8519 (8519) Pigmopur G50 (2406) Pigmotop (2514) PUR-Ecofill (2416) PUR-Hardener 8419 (8419) Waschverdünner 8501 (8501)	

	FURTHER DETAILS
Durability / storage	Min. 1 year(s) in the original sealed containers. Make sure the product is protected against moisture, direct sunlight, frost and high temperatures (above 30 °C).
Technical specifications	Delivery viscosity: 25 – 30 seconds according to DIN 53211 (4 mm measuring cup, 20 °C)
Safety information	The product is only suitable for the industrial and professional use. The inhalation of paint aerosols during spray application must generally be avoided. This is ensured by the proper use of a respirator (combination filter A2/P2). Further information on the subject of safety during transport, storage and handling as well as disposal can be found in the relevant safety data sheet. The current version can be accessed on the Internet at <b>www.adler-lacke.com</b> .
