

Clean-Smart B&P

8015

Cleaning fluid for transport belts and material lines in industrial coating systems for dried-on water-based paint residues for **industrial use**

PRODUCT DESCRIPTION

Product numbers

8015000210

General

Cleaning fluid with good dissolving power for dried-on water-based coatings, especially in industrial applications. Suitable for filling belt washers (has a long service life), recommended for cleaning transport belts and for rinsing material lines (belts & pipes). VOC reduction is possible by mixing with water.

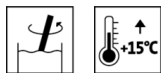

Application area

Cleaning of spraying machines, material-carrying lines in coating systems and transportation belts when working with water-based coatings.
Cleaning fluid for filling belt washers.

PROCESSING

Processing instructions

- Please stir the product before use.
- The temperature of the product and object, and the room temperature must be at least +15 °C.
- Clean-Smart B&P can be mixed with water before use in the ratio 1:2 (depending on requirements and degree of staining).
- After cleaning spraying equipment such as cup guns or airless sprayers, rinse them with water.
